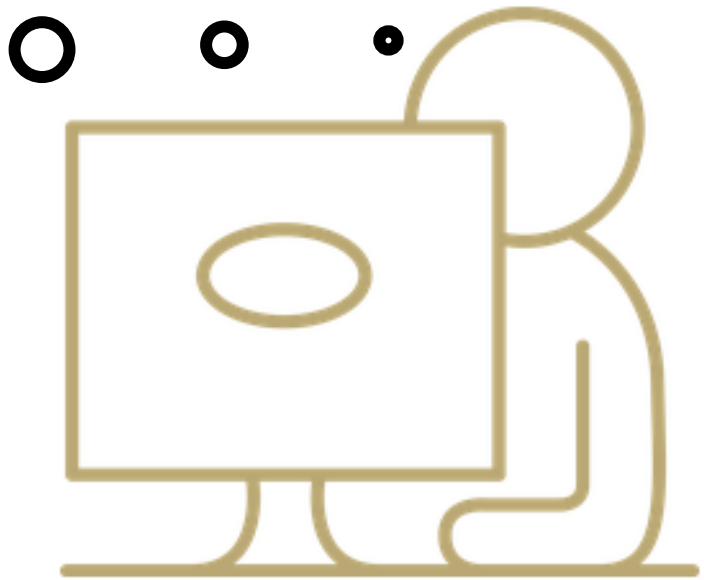
Ask your supervisor!



Welcome Center

Services for international researchers:

Consultation with the host institutes (Checklist for download)

Registration of international guests via the Welcome Centre of the University of Tübingen

For the Faculty of Medicine:
welcomecenter@med.uni-tuebingen.de

Before your stay:
- Support with visa application (§18d or §18g German Residence Act)
- Issue of the Hosting Agreement
- Information on key documents to bring with you from your home country
- Assistance in finding accommodation

On your arrival:
- Personal counselling after arrival at TÜ
- Assistance with administrative procedures (registration, residence permit, extension)
- Advice on other formalities such as health insurance, social security, bank account, etc.

During your stay:
- Support concerning all non-academic matters
- Language courses on offer
- Organisation of events

Presentation by the ombudsmen about good scientific practice

The Faculty Board and the Ombudsmen of the Faculty of Medicine invite all qualified members of the faculty to the lecture: "Good scientific practice at the Faculty of Medicine Tübingen". After an interactive lecture, Professor Krägeloh-Mann and Professor Beer-Hammer look forward to an interesting exchange with you....

Talent Academy

Identifying Talents

Creating Tracks

Defining Target Positions

Target Groups:
Physicians // Natural and Data Scientists with a Focus on Life Sciences //
Doctoral & PhD Candidates //
Postdocs & Clinician Scientists without Staff Responsibility //
Group Leaders // “Habilitierte” (or Equals)

Talent Academy

Clinician Scientist

Career track established: From doctoral studies to professorship

Data Scientist

Promoting the cross-linking of medicine and data science

BioMedical Scientist

Pilot mentoring program “Tü-SEED” implemented

Medical Educator Scientist

Funding program for postdoctoral researchers established

Talent Academy

Mentoring programs, to be extended to all science tracks

General and track specific information and networking events

Compilation of useful informations on our homepage „FAQs / Good to know“

Talent management offers (in prep.)

Funding and qualification programs

Compilation of qualification offers on our homepage

GA – TA - ABiP

As a member of the Faculty of Medicine, you are permitted to make use of the offers of

The University‘ s Graduate Academy (GA)

The MFT‘ s Talent Academy (TA)

The UKT‘ s Akademie für Bildung und Personalentwicklung (ABiP)

Qualification offers

listed here in part

Miscellaneous

Doctoral Studies

Please discuss with your supervisor which program would be most suitable for you. For details check the online information or contact the doctoral offices at the respective Faculty.

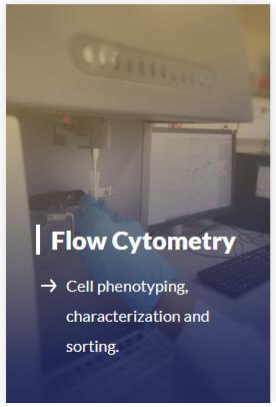
To enroll for a doctorate you first must be accepted as a doctoral student from the Faculty of Medicine (in case of Dr. med., Dr.med.dent, PhD in Experimental Medicine, and Dr.sc.hum) **or the Graduate Training Centre of Neuroscience or Faculty of Science** (in case of Dr.rer.nat.)

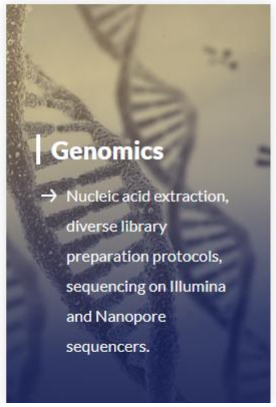
After admission as a doctoral candidate of one of our faculties, you can enroll via the student administration of the University of Tuebingen

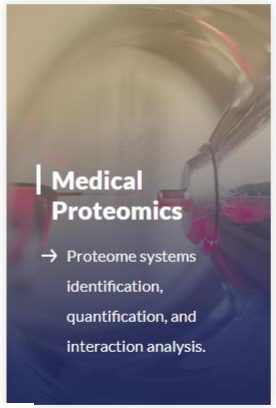
In addition, you may need an employment contract to carry out your doctoral project (particularly Dr.rer.nat).

Core Facilities (at a glance)

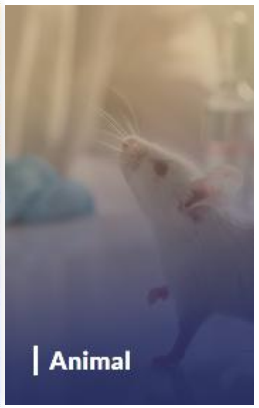
Analytical Technologies



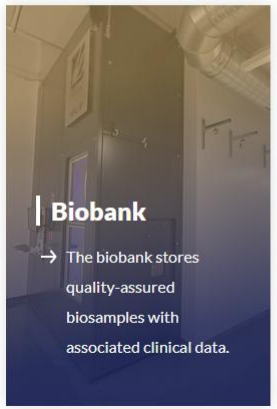




Imaging and Visualization



Clinical and Translational Research



S.T.A.R. PLATFORM
SHARED TECHNOLOGY AND RESEARCH

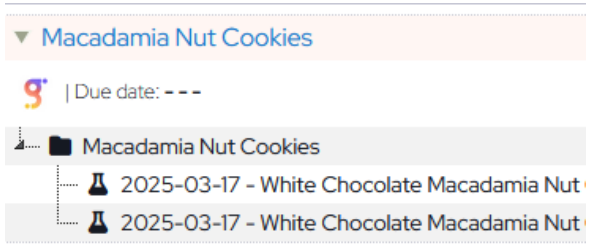
labguru by Cenevo

- Web based Electronic Lab Notebook + Lab Information Management System
- **Provided free of charge for members of the MFT**

➢ Mail to: Labguru.MFT@med.uni-tuebingen.de or Patrick.Moritz@med.uni-tuebingen.de

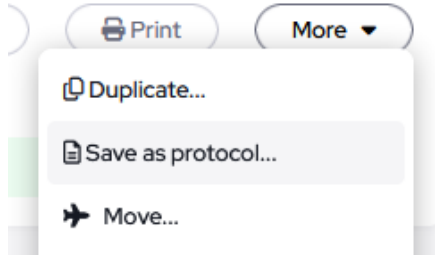
Organizing documentation

- ➢ Projects
- ➢ Folders
- ➢ Experiments



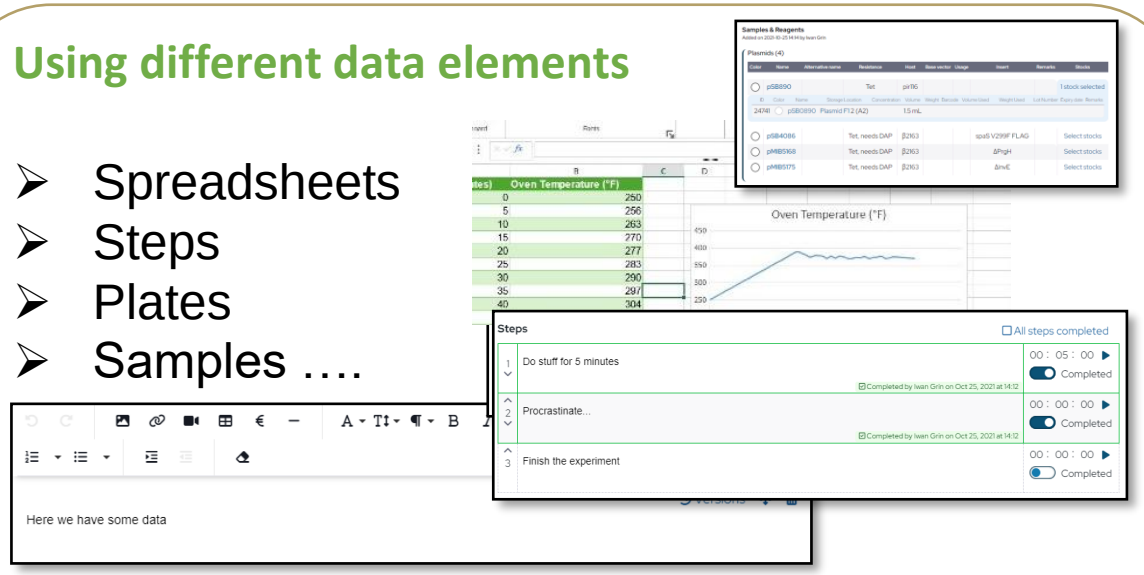
Establishing comprehensible protocols

- ➢ Standardization
- ➢ Reproducibility
- ➢ Traceability



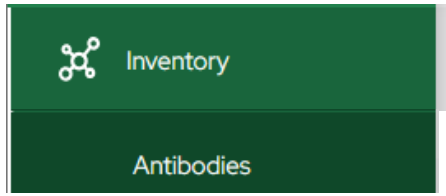
Using different data elements

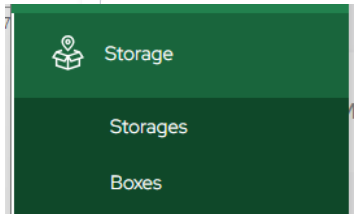
- ➢ Spreadsheets
- ➢ Steps
- ➢ Plates
- ➢ Samples ….

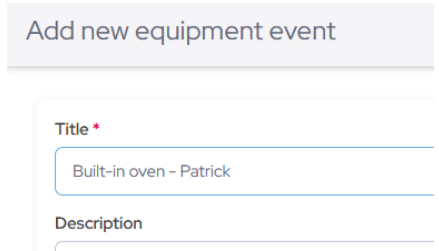


Equipment and material management

- ➢ Inventory
- ➢ Recipes
- ➢ Storages
- ➢ Equipment calendar



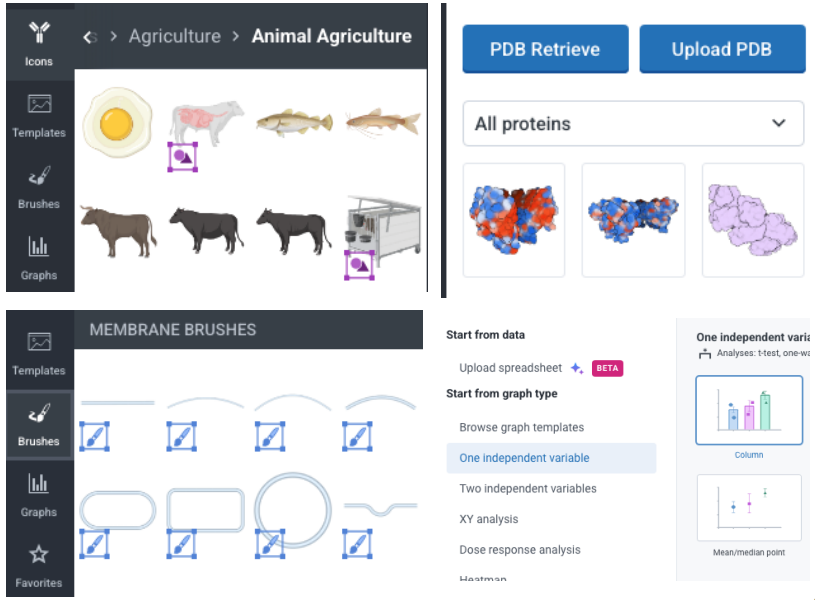




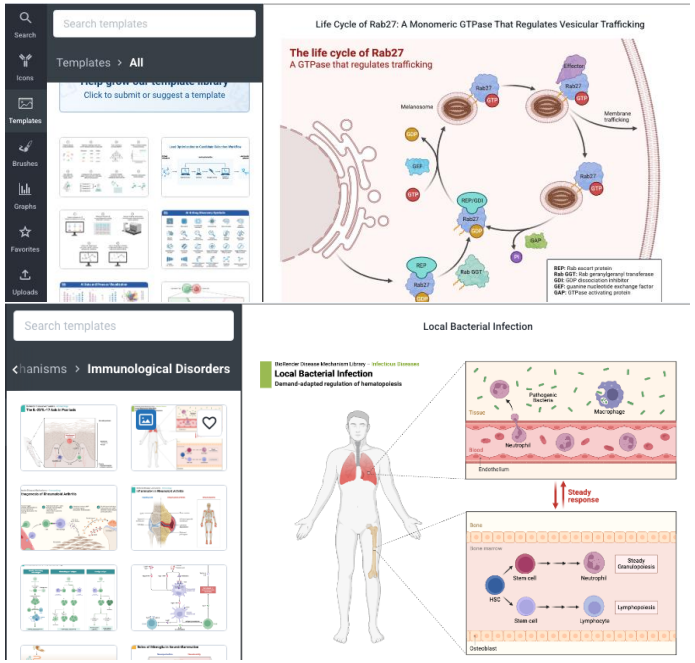
- BioRender is a web-based software for creating scientific illustrations
- The **Medical Faculty** provides **one** faculty-licensed (academic) **account per working group**

➢ For any questions, please contact: **biorender@med.uni-tuebingen.de**

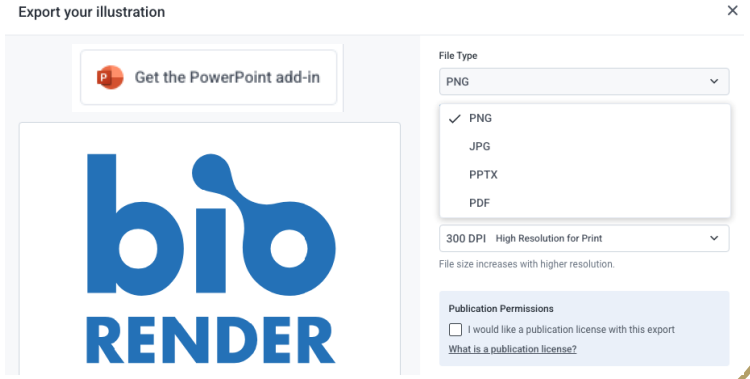
Use icons, brushes, graphs or upload PDB files to build customized illustrations



Use complete templates and adaot them to your needs



Export illustrations in various file formats or use the PowerPoint add-in



Topic areas: Cell structures - Signaling pathways - Organs - Viruses - Bacteria - Antibodies - Vaccines - DNA - RNA - Protein structures - Enzymes - Immune cells - Tumor cells - Microscopy images - Animal models - Blood circulation - Cardiovascular system - Neurons - Axons - Brain - Lungs - Skin layers - Wound healing - Drug mechanisms - Nanoparticles - Organoids - Tissue samples - Infection routes - Cell division - Apoptosis - Metabolism - Immune response - Vaccine mechanisms - Transfection processes - CRISPR-Cas9 - Gene expression - Cell culture - Microbiome - Cancer biology - .....

KiTa „Casa Medizini“

CASA MEDIZINI
KINDERTAGESSTÄTTE

Exclusively for children of employees at the Medical Faculty

under 3 years: 10 places

over 3 years: 30 places

Link to application

When things go wrong somehow…

Possible first points of contact:

- Conflict Management Unit (UKT) – for conflicts in the workplace context (Contact: Dr. Karsten Feil, karsten.feil@med.uni-tuebingen.de)
- University's Central Anti-Discrimination Advisory Service – for discrimination, sexual harassment and violence, bullying, stalking, and abuse of power (Contact: Cornelia Riethmüller, cornelia.riethmueller@uni-tuebingen.de)
- Ombuds Office of the Medical Faculty – for conflicts in academic procedures, questions on Good Scientific Practice, scientific misconduct, abuse of power, or compliance (Contact: Dr. Inka Montero, inka.montero@med.uni-tuebingen.de)
- Equal Opportunities Officer of the Medical Faculty – for questions on gender equality, discrimination, or abuse of power (Contact: Prof. Birgit Derntl, birgit.derntl@med.uni-tuebingen.de)
- University Equity Team – for enquiries about disadvantages based on gender (Contact: equity@uni-tuebingen.de)
- Welcome Center of the Medical Faculty – for intercultural questions, discrimination, and conflicts in an international work context (Contact: Natalia Backe, welcomecenter@med.uni-tuebingen.de)
- University Staff Council (TV-L and TV-Ä employment contracts) – for any questions relating to your employment (Contact: personalrat@uni-tuebingen.de)

Teaching: What we offer

You can expand your teaching competencies and engage in 16 degree programs across a broad spectrum of health-related subjects

- Give lectures, seminars, practical experience courses or electives
- Take advantage of individual feedback about your teaching: For your personal evaluation QR-Code please contact evaluation@med.uni-tuebingen.de
- Keep up with the latest teaching innovations: Check out courses at Tübingen Institute for Medical Education TIME or the University Center for Teaching and Learning, e.g. on Digital Perspectives

A summary of information for new lecturers can be found on our intranet (Wiki): Informationen für neue Lehrende (in German only)

Who to contact

Medicine and Dentistry

Please get in touch with the teaching delegates of your desired subject (Studienbeauftragte)

Health Sciences & Biomedicine:

Please take a look at the module handbooks of the degree programs on our homepage. You may contact the module coordinators of the desired modules or the program coordinators of the study program, you want to collaborate with.
Cannot identify your opportunity? Please mailto Barbara.Duffner@med.uni-tuebingen.de to check for vacancies

Funding for teaching projects

Goals of the funding program

- further development of the existing teaching offer to improve excellence in teaching and learning
- establishing sustainable, evidence-based and transferable adaptation and innovation in teaching
- creation of a transparent and consistent quality culture/evaluation system
- emphasising the unity of teaching, research and patient care
- offering a wide range of competencies in the health sciences

Application

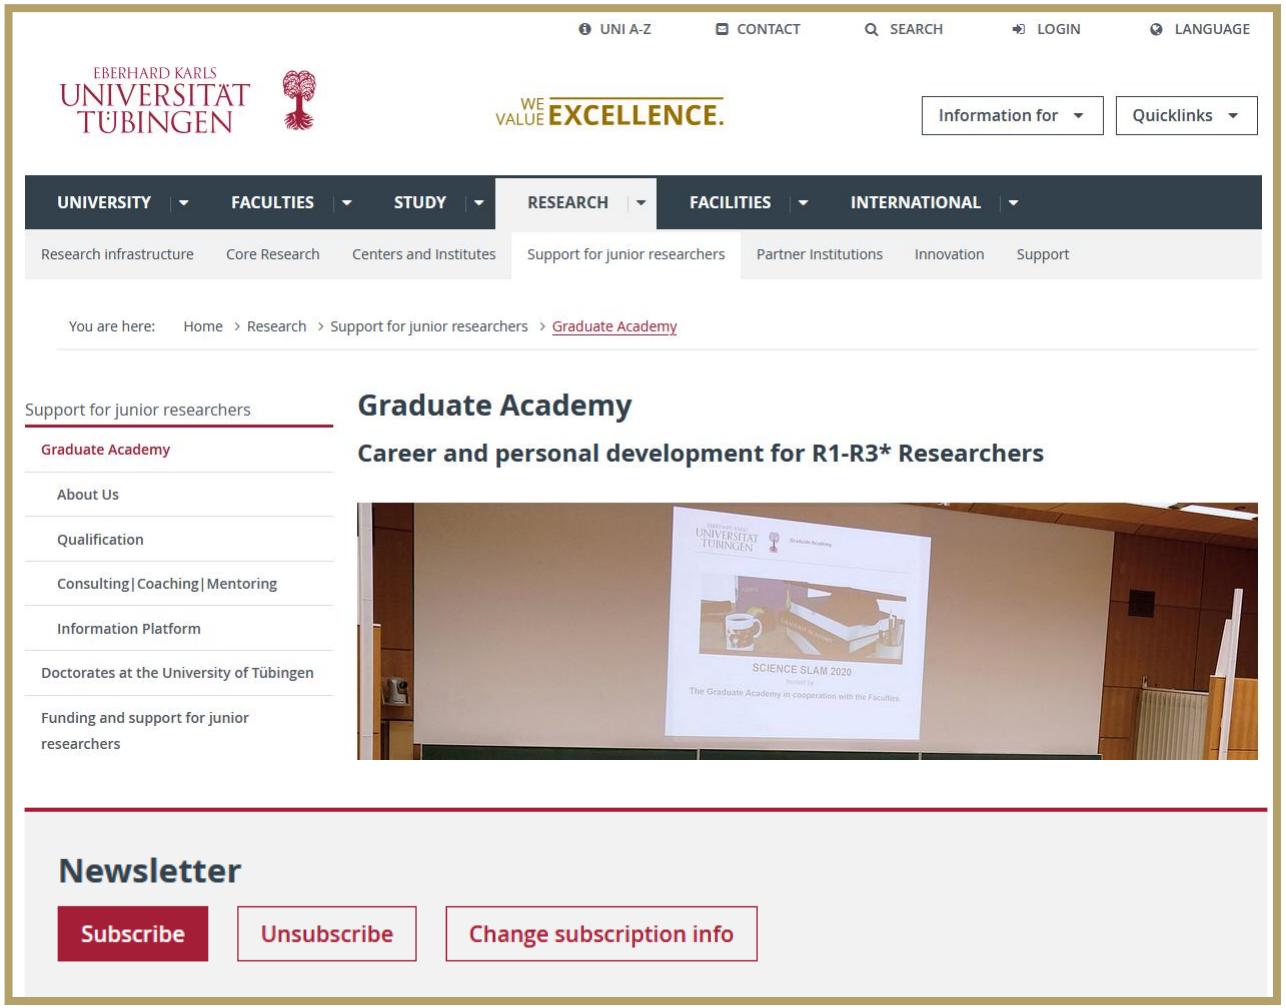
Application open for all degree programs of the Faculty of Medicine (eligible to apply are all faculty members funded by F*L and after previous consultation with the corresponding dean of studies or respecively the degree program coordinator)

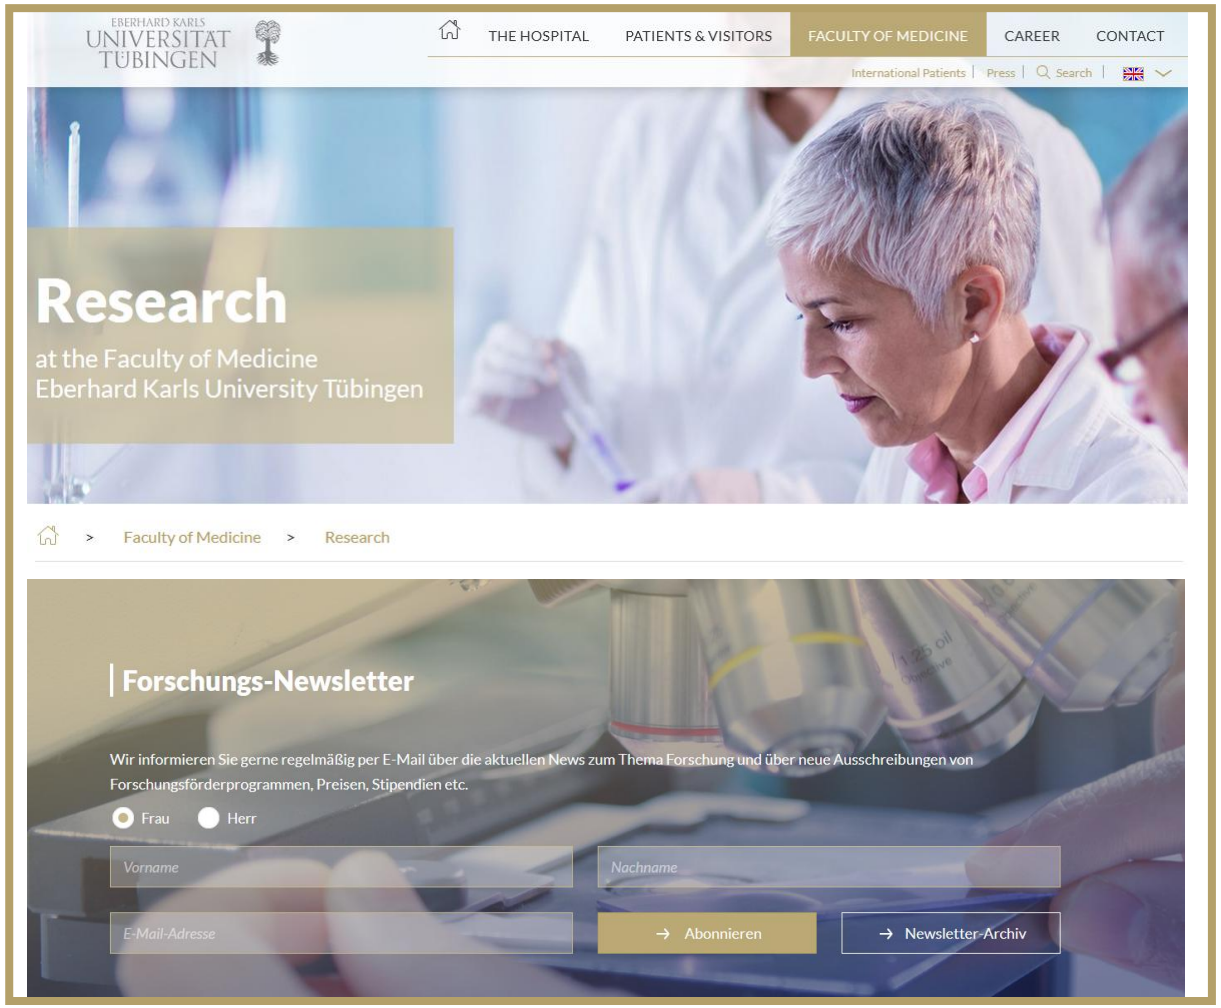
The deadline for submitting applications is the first of May of each year.

All active project holders are obliged to participate in the meetings of a **PROFIL board** once per semester to present the project progress and discuss the teaching development activities.

For further informations regarding application and statutes please visit our **homepage:**

Recommended Newsletters





Seeing and being seen

- Scientific societies and conferences play a crucial role in your external perception
- Being invited to conference and to give talks is a very important part of shaping your scientific visibility in the community
