The University Medical Center Tübingen is part of the University of Excellence Tübingen. It provides medical services at the highest level and covers the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the University Department of Medicine, Clinic for Medical Oncology and Pneumology (Internal Medicine VIII) within the Cluster of Excellence iFIT (Image-Guided and Functionally Instructed Tumor Therapies) as a

**Assistant Professor of Functional Immunogenomics**

available immediately.

In accordance with LHG § 51 (7) this fixed-term position (category W1) is initially limited to four years, with the possibility of extension by a further two years after a positive interim evaluation.

The successful candidate shall investigate molecular mechanisms of immunotherapy resistance of lung cancer and other solid tumors by means of in vivo conducted functional genetic screens (shRNA- and Crispr/Cas screening technologies). We are looking for a candidate with a translational research focus at the interface of molecular biology and immunology. The successful candidate will be a member of the Cluster of Excellence iFIT. Training as a physician and an interest in early clinical translation are especially welcome.

Required qualifications include an outstanding doctorate in a pertinent field, recognizable potential for internationally acclaimed publications in leading international peer-reviewed journals and third-party funding, as well as teaching experience and commitment in teaching. The position has a teaching obligation of four hours per week prior to interim evaluation and six hours thereafter.

This position provides the opportunity and expectation that, in the course of the six years of the contract, the W1 assistant professor will attain the research and teaching achievements that will qualify him or her for a subsequent appointment as a tenured professor at a university or equivalent institution. Detailed information on the criteria for the interim and final evaluations may be found in our guidelines for review under the following link: https://berufungsportal.medizin.uni-tuebingen.de.

Applicants must be in an early stage of their career; those who have completed a habilitation will therefore be excluded.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching and therefore strongly encourages women candidates to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

The German-language advertisement is the sole legally binding advertisement of this position.
Please submit your entire application using the web-based application platform https://berufungsportal.medizin.uni-tuebingen.de. The deadline for applications is November 14th, 2019.

Enquiries may be directed to the Dean.
