The University Medical Center Tübingen is part of the University of Excellence Tübingen. It provides medical services at the highest level and covers the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position at the University Department of Psychiatry and Psychotherapy in the Section General Psychiatry and Psychotherapy as a

**Full Professor (W3) of Neurotechnology and Computational Psychiatry (f/m/d)**

available immediately.

The successful candidate should represent the areas neurotechnology and computational psychiatry at an international level in research and teaching. These areas include the following topics: brain computer interfaces; neurofeedback methods; modeling and integrative analysis of complex, multi-modal data of persons suffering from mental illness obtained from e.g. neuroimaging (fMRI, NIRS, EEG, MEG, PET), genetics / epigenetics, or clinical data, for instance from neuropsychology, psychometrics, or ecological momentary assessment. We expect a close cooperation with the clinically active physicians and psychologists, but also with the bioinformatics research groups at the University Hospital Tübingen, the Faculty of Medicine, and other university and non-university research institutions. We are looking for a person with an excellent research track record in the above-mentioned fields to pursue relevant scientific issues in close cooperation with the existing research structures in Tübingen (e.g. Center for Mental Health (ZPG), Tübingen Neuro Campus (TNC), QBIC, DIFUTURE, Cluster of Excellence Machine Learning, MPI for Biological Cybernetics, Cyber Valley Tübingen).

Required qualifications include a PhD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the share of women in research and teaching and therefore strongly encourages women candidates to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

The German-language advertisement is the sole legally binding advertisement of this position.

Please submit your entire application using the web-based application platform [https://berufungsportal.medizin.uni-tuebingen.de](https://berufungsportal.medizin.uni-tuebingen.de). The deadline for applications is **October 17th, 2019**.
Enquiries may be directed to the Dean.
