

Flow Cytometry Basic Training at FCF-Berg

- FCF-Berg staff provides University Tübingen researchers with the opportunity to participate in "Basic Training" for Flow Cytometry
- Online Training (see below) is a prerequisite for the "Basic Training" at FCF-Berg
- "Basic Training" at FCF-Berg is a prerequisite for the use of the analyzers and a subject to fee (see Charges and Fees)

If you would like to participate in the Basic Training, please send an E-Mail to [FCF-Berg](#).

Online Training

As a prerequisite for Basic Training at the FCF Berg please refer to the homepage of [Biorad](#):
We recommend reading the chapters

- 1 – Principles of the Flow Cytometer,
- 2 – Principles of Fluorescence,
- 4 – Controls in Flow Cytometry and
- 8 – Common Protocols.

We further recommend the Training and E-Learning supply at the [BD Homepage](#) or [Flow Cytometry - Star CellBio](#). The offered videos will give you a perfect overview on how a cytometer works.
