

The University Medical Center Tübingen is part of the University of Excellence Tübingen. It provides medical services at the highest level and covers the entire spectrum of modern medicine, research, teaching and clinical care.

The Faculty of Medicine at the University of Tübingen invites applications for a position within the framework of the Cluster of Excellence iFIT (Image-Guided and Functionally Instructed Tumor Therapies) at the Comprehensive Cancer Center (CCC) Tübingen-Stuttgart and the University Department of Radiation Oncology as a

**Full Professor (W3) of Tumor Biology and Functional Target Discovery (f/m/d)  
(Physician or Scientist)**

available immediately.

The successful candidate should represent the research area “Tumor Biology and Functional Target Discovery” on an internationally competitive level. We are looking for an internationally recognized expert with a focus on functional target identification in therapy-resistant tumors. In particular, a focus on epigenetic analyses of tumors and the development of epigenetically based therapy strategies is desired. In addition to the required molecular biological, cell biological, and epigenetic techniques, the applicant should have expertise in bioinformatic analysis of high throughput genetic and epigenetic data.

A close cooperation with the existing FOR 2314, the CRC-TRR 209, and the CRC-TRR 156 as well as with other members of the CCC Tübingen-Stuttgart is expected. Furthermore, the successful candidate should actively participate in existing research networks, especially the German Cancer Consortium (Deutsches Konsortium für Translationale Krebsforschung, DKTK), the cooperation with the Robert Bosch Center for Tumor Diseases (Robert-Bosch Centrum für Tumorerkrankungen, RBCT), the German Cancer Research Center (Deutsches Krebsforschungszentrum, DKFZ), and the Center for Personalized Medicine (Zentrum für Personalisierte Medizin, ZPM).

We expect a committed participation and active shaping of teaching within the degree programs of the Faculty of Medicine.

Required qualifications include a PhD or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure. This includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the share of women in research and teaching and therefore strongly encourages women candidates to apply. In line with its internationalization agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

You can find further information on required documentation in our application guidelines at [www.medizin.uni-tuebingen.de/de/medizinische-fakultaet/struktur-und-berufung](http://www.medizin.uni-tuebingen.de/de/medizinische-fakultaet/struktur-und-berufung). The German-language advertisement is the sole legally binding advertisement of this position.

Please send your entire application (with application form) as a single, electronic PDF file to **berufungen.dekanat@med.uni-tuebingen.de**. The deadline for applications is **September 12<sup>th</sup>, 2019**. Enquiries may be directed to the Dean.
