A unique position. Unique opportunities.

Bf Klinik Ludwigshafen und Tübingen gymn. as the responsible organization for the Bergstrassenklinik in Baden-Württemberg, and the Faculty of Medicine at the University of Tübingen invite applications for the position of:

Medical Director (m/f/d)

as the Bf Klinik Tübingen to commence as soon as possible. The holder of this position is at the same time Director of the Trauma and Reconstructive Surgery Clinic, and will also be appointed to the Wi Professorship for Trauma Surgery at the Faculty of Medicine.

Bf Klinik Ludwigshafen und Tübingen gymn. operates highly qualified hospital facilities for the treatment of accident victims in the 8 clinics mentioned above. It is a subsidiary of one of the largest hospital groups in Germany (http://www.sphklinik.de).

The Bf Klinik Tübingen (http://www.bfgklinik.tuebingen.de) is one of the largest surgical and trauma centers in Germany, with up to 100 beds and around 100 employees. In addition to the accident surgery department, the Bf Klinik Tübingen also has other departments, for Hand, Plastic, Reconstructive and Burns Surgery, Orthopedic and Vascular Surgery, and Thoracic, Thoracic, Cardiovascular and Vascular Surgery, Anaesthesiology, Intensive Care and Pain Therapy, and Radiology. Within the framework of the Bergstrassenklinik’s treatment mandate, the hospital is also affiliated with a department for professional rehabilitation and therapy control. The clinic for accident and reconstructive surgery comprises 12 beds, of which five are in the rehabilitation area. Since 2011, the Bf Klinik Tübingen has led over 700 medical research projects.

In addition, the Bf Klinik Tübingen performs teaching and research tasks in trauma surgery as well as hand, plastic and burn surgery at the University of Tübingen (http://www.universitaetstuebingen.de) (the University of Tübingen as a site of research and teaching is a backbone in the selection process, the Medical Director is to be appointed as a university professor at the University of Tübingen with all academic rights and duties). Promotion is expected in existing and planned research networks (Bundesministerium für Bildung und Forschung, Deutsche Forschungsgemeinschaft, etc.) and in areas of research at the Faculty of Medicine (translational, basic and clinical research, diabetes, vascular medicine, medical technology) as well as in the University, especially in the field of medical technology and regenerative medicine. The successful candidate will thus contribute to the application-oriented development of new technological concepts and to interdisciplinary scientific research in Tübingen.

Your tasks

- As Medical Director, you will be a member of the management in Tübingen, reporting directly to the hospital’s executive board, and will be in charge of planning and responsible for medicine and medical services, with special consideration of the requirements of the Wi German Trauma Centre (WiK) ecosystem (e.g. liaison with the necessary departments, responsible for the coordination, and determination of policies), and will personally ensure the clinical implementation of the strategies and definitions.
- You will be in charge of Trauma Surgery / Orthopaedics.
- As part of a leadership in the hospital management, you will be responsible for project planning, budgeting, and strategic planning and implementation.
- You represent the Bf Klinik Tübingen in clinical networks, scientific cooperation and research projects, in particular with clinical research institutions, as well as in professional societies and associations. At group level, you will be a member of the Medical Advisory Board and actively participate in working groups of the DGHG (Deutsche Gesellschaft für Handchirurgie Orthopädie) and the DGH (Deutsche Gesellschaft für Orthopädie und Orthopädische Chirurgie).
- As an appointed professor, your designated tasks include research and teaching.
- You will also play an active role in academic committees run by the Faculty of Medicine and by the University.

Your profile

- You are a recognized specialist in orthopaedics and trauma surgery, including additional training in the field of vascular surgery, and meet the requirements for full entitlement to further training.
- In addition, you have excellent management and leadership experience and can demonstrate success in managing large clinical facilities.
- You can demonstrate innovative and international-oriented clinical research (basic, condition- and patient-oriented), as well as third-party funding obtained in a competitive process, and publications.
- You have outstanding and outstandingly qualified experience in teaching and training, in particular with regard to innovative teaching concepts in clinical medicine study programs.

We offer

- Versatile, demanding and responsible activities in a very committed team
- A highly specialised healthcare environment – everything you need for modern, forward-looking medicine
- Opportunities for research, teaching and medical policy
- Options for further training and education
- Performance-related remuneration

Required qualifications include a M.D. or equivalent international degree and postdoctoral qualifications equivalent to the requirements for tenure, this includes evidence of teaching effectiveness.

The University of Tübingen is particularly interested in increasing the number of women in research and teaching, and therefore strongly encourages women candidates to apply.

In line with its Internationalisation agenda, the university welcomes applications from researchers outside Germany.

Applications from equally qualified candidates with disabilities will be given preference.

The German-language advertisement in the local newspaper announcing this position is available at https://www.medizin.uni-tuebingen.de/de/karrieremessen/suche-und-bewerbung and is to be regarded as the official announcement.

We look forward to receiving your detailed application by October 15, 2023. Please send your application complete with all required documents by email as a single PDF file to:

bg-klinik.tuebingen@medizin.uni-tuebingen.de

Or apply directly via our careers portal www.bfg-klinik.de

Your application will be forwarded to:
