CANCER RESEARCH CENTER
IN THE HELMHOLTZ ASSOCIATION

Research for a Life without Cancer

Twinning Grants

Project Call 2019

Scope

The German Cancer Research Center (DKFZ), the University Hospital and Faculty of Medicine Tübingen (UKT), and the Robert Bosch Center for Tumor Diseases (RBCT) at the Bosch Health Campus (BHC) collaborate in the area of personalised oncology in a strategic partnership since 2016.

In this context, the partners provide funds for collaborative clinical and translational projects between partner institutions in the area of personalised oncology. Projects must be multidisciplinary and clearly demonstrating synergy among contributing research groups / clinical departments. Special emphasis is given to clinical and preventive trials. Funding may be provided for personnel (excluding PhD/MD students) and consumables.

Timelines

- Deadline for the submission of project pre-proposals: 31 August 2019
- Information on full proposal invitation by 30 September 2019
- Dealine for the submission of project full proposals: 31 October 2019
- Final decision on full proposals by 30 November 2019
- Project start from January 2020

RBCT – UKT Twinning Grants

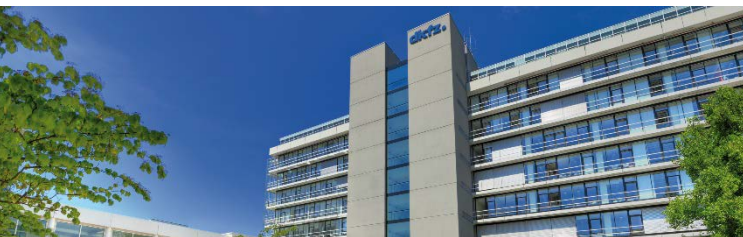

Eligible are joint project proposals by an UKT scientist and a scientist from the RBCT.

The typical twinning project is e.g. for 3 years with €100,000 p.a. from the RBCT/BHC partner and a similar amount as in kind contribution from the UKT partner.

RBCT – DKFZ Twinning Grants

Eligible are joint project proposals by a DKFZ employee and a scientist from RBCT. The partner institutions provide funding of typically up to a total of 300 kEUR p.a. per project for twinning projects between the DKFZ and the RBCT/BHC, of which 150 kEUR are DKFZ in kind contributions.

Support

Applicants are advised to contact the grant programme coordinators at their institution (see backpage). Pre-proposal templates can be obtained by the coordinators.
